

Cash Flow Modelling

Turn Your Dreams Into Reality

Complimentary* Cash Flow Modelling for gunnercooke Partners

*Service valued at £1,500

At Capstone Financial, we start by understanding **you** – your current position, future aspirations, lifestyle goals, and what truly matters to you. Using sophisticated cash flow modelling, we combine this insight with your financial data to create a clear, long-term view of your future finances.

What is Cash Flow Modelling?

Cash flow modelling is an interactive financial planning tool we offer free of charge to gunnercooke Partners. It illustrates how your finances could evolve over time by analysing your income, assets, outgoings, and future plans – allowing you to see when and how your goals will be achievable.

Explore real-life “what if” scenarios, such as:

- “ What if I want to retire early, how much will I need to save?
- “ What if I want to help my children buy their first home?
- “ Could I afford a holiday home in 10 years’ time?

By modelling these scenarios, we can work with you to build **practical, achievable strategies** that help turn your ambitions into reality.

Why it matters

- ✓ Understand your life plan and long-term financial goals.
- ✓ Identify potential risks and opportunities early.
- ✓ Build a clear roadmap to achieve the lifestyle you want.
- ✓ Make confident, informed financial decisions – now and in the future.
